## Message of the Pleiadians on the current situation [March 2022]

### ***Dear messengers of light of this planet,***

You are close to the goal. The dark clouds are moving away and will soon disappear behind the horizon.

Nevertheless, many people carry uncertainty about how the whole situation will develop. Many people have lost their balance, their confidence and their strength for the positive future. However, we must repeat once again and again - the positive future begins in each of you. You have already come very far and you have overcome great trials.

Those of you who have passed these life trials and are moving on are the ones who are maintaining a stable energy on this planet. Please do not give up your positive plans and visions for the future time.

Many dark alien beings have left your planet for good. Many dark beings have even left willingly, knowing that staying on Earth would no longer benefit them. Whole colonies of alien alliances have left your planet, taking with them a large amount of fields of destruction and dark magic.

During this time, the regeneration of your planet's interior is taking place. We have installed devices in the empty, abandoned corridors and rooms that help your planet heal and illuminate its ravaged interior. These devices increase the life energy of these subterranean spaces, which were virtually saturated with the horrifying energy of past times and past events.

Together with our extraterrestrial, peace-loving comrades, we have installed devices in the dimensions of the Earth's interior that divert the accumulated emotions of horror, fear and madness into dimensions where they are transformed into light energy.

Nevertheless, it may happen that the inhabitants of this planet, who carry similar emotions that have not yet been processed, resonate with these energies that are being released and feel them in their own system of soul, mind or body.

However, the regeneration stage of the Earth's interior has already begun, and with the completion of this stage, we will shift our technologies to the surface of the globe and work on the purification of fields of negative emotions and emotions of manipulation that the dark beings and powers have created.

Through this purification, many inhabitants will be supported to separate themselves better and more easily from the negative fields of manipulation and fear.

The positivity as well as the positive mood will spread more easily. Many residents will gain new strength and hope to move on. Many residents who decide to free themselves from these manipulative energies will be given the opportunity to do so. The energy fields on this planet will become clearer again.

Despite all this, you must be clear and aware that many human beings have been working with extraterrestrial dark beings and that it will take some time for the old systems on this planet to break down. The obsolete systems will collapse and new systems based on higher consciousness will emerge.

It is important that you know that we are with you and that we are making every effort to ensure a smooth transition into the new systems.

However, flexibility in your actions and thinking is necessary at this time.

What is also necessary is your continued trust that a vast amount of beings - both physical and luminous - are continuously helping you and accompanying you on your path.

Be aware that the occupation by the dark extraterrestrial beings has lasted several thousand years. A holistic renewal cannot take place within a few months. Please do not lose your patience. You are not alone.

Connect with your inner being. Through this you will become stronger.

At the end of the last year 2021, the extraterrestrial peace-loving soul parts were activated by the divine intelligence in people who came to Earth from other planets, other worlds or other galaxies. You also belong to these people. Otherwise you would not be attracted by this information. The activation of the soul fragments makes you remember your luminous task and your soul light. You also belong to those who ignite the light of their entire systems and who transmit this light to their surroundings. This light will attract you to each other. You will find each other. You are creating a web of light across the planet, raising the vibration of humanity's energy and the vibration of this planet's energy with light energy that you have brought from your home planet.

Each one of you is important. Each one of you. Give up your negative programs consciously and let your light shine, which will not only help you, but also the whole society. You are connected with each other. Everyone influences everyone else. Choose liberation and healing. The liberation and healing begins in each of you. We are with you and accompany you.
